the public speaking project Speaking too fast is often the result of not stopping to breathe often enough. Solution: To slow down your speaking with the breath, consciously take a breath before you begin. Remember to stop and breathe between ideas. The next time you practice a presentation, take time to inhale and exhale deeply five times before you start to speak.

How to Breathe When Public Speaking

the public speaking project Speech production is a complex activity, and as a consequence errors are common, especially in children. Speech errors come in many forms and are often used to provide evidence to support hypotheses about the nature of speech. As a result, speech errors are often used in the construction of models for language production and child language acquisition.
