The circular convolution, also known as cyclic convolution, of two aperiodic functions
(i.e. Schwartz functions) occurs when one of them is convolved in the normal way with a
periodic summation of the other function. That situation arises in the context of the
circular convolution theorem. The identical operation can also be expressed in terms of
the periodic summations of both functions, if ...

1. Introduction
1.1. A circular economy in transition, for the sake of sustainable development. In 1987, the Brundtland Commission called for the creation of new ways to assess progress toward sustainable development (SD), resulting in the emergence of a wide variety of sustainable development indicators (SDI) advanced by academics, companies, environmental agencies and governmental organizations.

Sustainability aims at addressing environmental and socio-economic issues in the long term. In general, the literature on sustainability has focused mainly on the environmental issues, whereas, more recently, a Circular Economy has been proposed as one of the latest concepts for addressing both the environmental and socio-economic issues.
